2. Select a Work Order.

You may also select a Work order by clicking on the WO toolbar button.

All open Work Orders will be displayed by default. To view closed ones, tick the 'Close' field.

3. After the Work Order selection, all task cards, modifications and additional jobs that constitute it, will be displayed. To switch between them use all these tabs:

4. To register all required materials for a Task Card/ Modification/ Additional Job, highlight it from the list. Then, double click necessary material from the Material list, and in the Material Specification Editor enter a unit and quantity (view 4.1). The list of materials is taken from the Parts Catalog (Store Module, Components sub-module).

If you need to register tools, select a 'Tools' tab, then click on and fill out tool data in the emerged editor. Click on the 'Save' button to save (view 4.2).

5. To delete a wrongly registered material, highlight it and click on.

6. When all materials for the Work Order are registered, click on Print button .
