TASK CARD RELATION

User Guidance

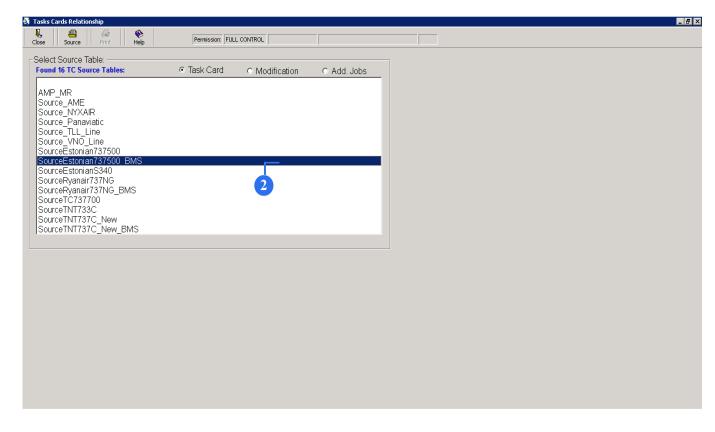

1. Task Card Relation.

1. The Task Card Relation sub-module registers tasks, which completion can be carried out together with another task card.

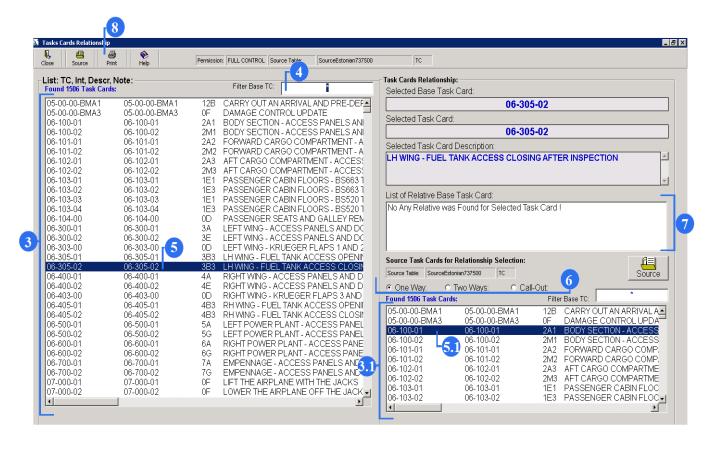

2. Select a Source of Task Cards/ Modifications/ Additional Jobs (tick the necessary field).

You may also select a Work order by clicking on the Source toolbar button.

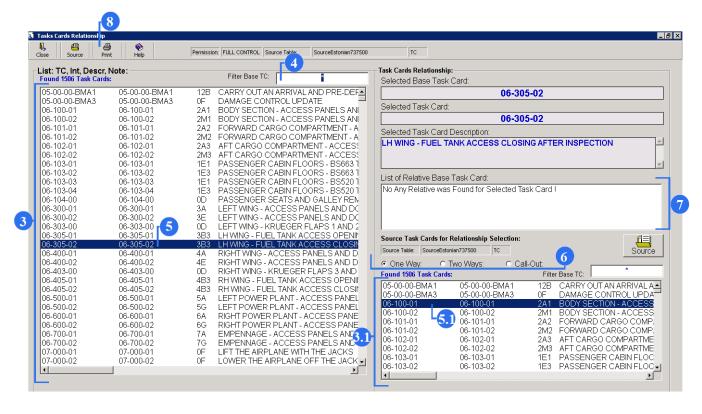

- 3. After the source selection, a list of task cards/ modifications/ additional jobs will be displayed. This list is displayed twice (view 3.1). If the list is not displayed automatically, click on Source.
- 4. Use filter to find a task card/modification/additional job.
- 5. To register relation of one task card to another task card (modification/additional job), highlight it from the list. Then, double click a necessary task card from the 'Found Tasks List' (to change the source, click on Source), which completion can be carried out together with the highlighted task card (view 5.1).

User Guidance

- 6. Set a relation type:
- 'One Way Relation' means that when Task A is completed, Task B must be also completed.
- 'Two Ways Relation' means that when Task A is completed, Task B must be also completed. And vice versa: when Task B is completed, task A must be also completed.
- 7. The relation will be displayed in the List of Relative Base Task Card.
- 8. When access to all necessary panels are registered, click on Print.
